

COMPETENCY_RADAR REPORT

Generated 25 June 2026 · MetryxOne

Executive Summary

Sarah Johnson's capability is measured across 4 competency types (domain-proxy), classification coverage 100%.

Candidate Information

Name: Sarah Johnson
Reference (masked): user_4286d980cc6c
Current role: Senior Product Manager
Target role: Director of Product
Industry: Technology
Experience: 8 years
Education: MBA
Location: Bangalore, India

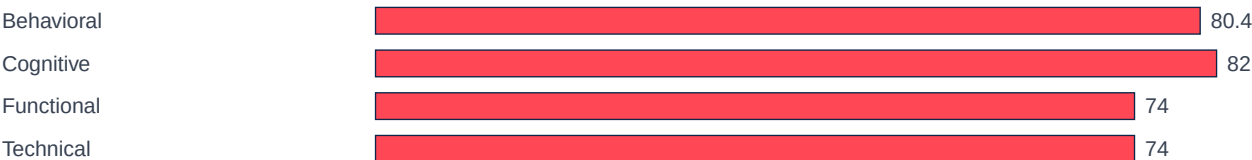

Profile summary: Senior Product Manager with 8 years across B2B SaaS, leading cross-functional teams and data-driven product strategy. MBA. Seeking director-level product leadership.

Assessment Summary

Mean domain-proxy score by competency type — Behavioral: 80.4; Cognitive: 82; Functional: 74; Technical: 74.

Visualizations

Chart: Visualizations · Data source: competency

Interpretation

The radar contrasts capability across competency types (behavioural, cognitive, functional, technical, future-skills). Each type mean is a domain-proxy: every competency inherits the measured score of its onto-domain. A balanced shape indicates broad capability; a skewed shape highlights concentration.

Recommendations

- Strongest: Cognitive (82).
- Development priority: Technical (74).

Confidence Level

Derived from 100% type-classification coverage (structural; not measured scores).

Data Source

competency-runtime.computeTypeProfile !' onto_competency_profiles domain scores, grouped by competency type (domain-PROXY mean per type; an onto-domain with no bank code, e.g. strategic, is unmeasurable and excluded).
