Assessment Summary

Headline metrics — Competency Score: 77; Employability Index: 81.2; EI Composite: 81.2; Role Match %: 77.4.

Visualizations

Chart: Visualizations · Data source: composite

Interpretation

This summary consolidates the candidate's strongest evidence across competency, employability and role-fit lenses. Each headline metric is explored in its dedicated report; figures are developmental signals, not hiring or promotion decisions.

Recommendations

- Target role: GenAI Engineer

- Consider the research industry
 - Consider the data function
-

Confidence Level

Overall confidence: Provisional. Domain-proxy scoring (aggregate domain level, not per-competency). Confidence rises to High once a competency-tagged assessment is scored. Coverage, Confidence and Activation are reported as separate axes and are never combined into a single figure.

Data Source

Composed from competency-runtime (getProfile), ei-profile-engine, employability-scoring-engine, career-gap-engine, employer-competency-hiring (match) and career-recommendation-aggregator.
