

ROLE_READINESS REPORT

Generated 25 June 2026 · MetryxOne

Executive Summary

Role readiness for Senior Product Manager cannot be measured: the resolved role title does not map to a profiled role with stored competency requirements.

Candidate Information

Name: Sarah Johnson
Reference (masked): user_4286d980cc6c
Current role: Senior Product Manager
Target role: Director of Product
Industry: Technology
Experience: 8 years
Education: MBA
Location: Bangalore, India

Profile summary: Senior Product Manager with 8 years across B2B SaaS, leading cross-functional teams and data-driven product strategy. MBA. Seeking director-level product leadership.

Assessment Summary

No readiness score is available because the role lacks a stored requirement profile on this path.

Visualizations

Insufficient validated data to populate this section yet.

Why: "Senior Product Manager" does not resolve to a profiled role with stored competency requirements on the Role-Readiness path.

How to populate it: Map the target role to a profiled onto_role with stored requirement levels (Role DNA governance).

What is needed: A role profile with required competency levels for the target role.

Expected output once available: A readiness score with per-competency gaps, fit band, and critical/blocking gap counts.

Interpretation

The employer competency match report reaches role requirements via a different path (generateRoleDNA over the genome) and does compute a match — the divergence is a real platform finding, surfaced honestly rather than estimated here.

Recommendations

Insufficient validated data to populate this section yet.

Why: "Senior Product Manager" does not resolve to a profiled role with stored competency requirements on the Role-Readiness path.

How to populate it: Map the target role to a profiled onto_role with stored requirement levels (Role DNA governance).

What is needed: A role profile with required competency levels for the target role.

Expected output once available: A readiness score with per-competency gaps, fit band, and critical/blocking gap counts.

Confidence Level

Confidence not applicable — role requirements unmapped on this path.
